

## Playing Order

To reserve your place to play, place your paddles in groups of 4 against the fence in front of court #3 starting on the right side closest to the bleachers. When a game has finished on ANY court, all four players must vacate the court and the 4 paddles first in line will be next to play. The remaining paddles against the fence are then moved to the right.

If you wish to play with a specific foursome then place your 4 paddles to the left of those currently placed at the fence. The group furthest to the right **MUST** play before the foursome even if there are less than 4 paddles down. The group who has the right of the next court can invite other people to make up their foursome.

You **CANNOT** save a place of a player currently playing - you have to wait until that person comes off the court and is able to place their own paddle in the lineup.

If in doubt please ask any board member or those familiar with our process.
